**Conveyor Details**

Quantity of motorized pulleys:   
 Desired pulley diameter :   
 Specific objects to be conveyed  
 (Description of product) :   
 Conveyor Length  
 (center to center (ft.) ) :   
 Face width dimension (RL)(in.) :   
 Between Frame dimesion (in.) :   
 Height (ft.) or Degree of  
 Incline or Decline :   
 Conveyor speed (ft./min.) :   
 Weight of object/objects  
 to be conveyed (lbs./ft. Max) :   
 Run frequency (How often the  
 pulley starts/stops per min.) :   
 Duty Cycle  
 ( [# hrs./day] , [# days/wk.] ) :   
 Loading situations :   
 Operation (indoor or outdoor) :   
 Ambient temp. range (°F) :   
 Temp. of conveyed material (°F):   
 Fluids present (yes / no) :

**Electrical Requirements**

Voltage (115, 230, 460, 575) :   
 Phase (single or three phase) :   
 Frequency (50 or 60 Hz) :

**Termination**

Terminal box or power cord :

**Terminal box options**

SS or Aluminum

**Power cord options**

10' or 15' long :   
 Elbow or straight connector :

**Belt information**

Belt type :   
 Belt width (in.) :  Belt Weight (lb/ft) :   
 Special info :

**Slider bed information**

Bed material :   
 (stainless steel, carbon steel, UHMW, etc...)  
 Frictional coefficient between belt & bed :

**Roller bed information**

Number of rollers per ft. of conveyor :   
 Weight of each roller :

**Special Features & Optional Extras :**

Mounting blocks :  VFD (inverter) :   
 (yes / no) (yes / no)  
 Center "V" Groove :  Encoder :   
 (yes / no) (yes / no)  
 Electromagnetic Brake :  Mechanical Backstop :   
 (yes / no) (yes / no) (If yes [clockwise or ccw rotation])  
 Full Food Grade SS :  Modular Belts :   
 (yes / no) Sprockets / Grooved Rubber Lagging  
 Lagging :  Vertical Mounting :   
 (yes / no) yes, if more than 2 degrees over horizontal plane  
 Additional or   
 other info :

**Idler Pulleys**

Quantity :  Diameter (in.) :   
 Type & special options :   
  
 Face width dimension (RL) (in.) :   
 Between Frame dimension (in.) :
